On July 27th, 2021, ROBLOX announced that they were going to be having an "open beta" of a new in-game currency system that would allow users to buy and sell virtual currency. This feature was added to the site in 2021, but this was the first time that it was open to everyone. This new system came with a "Queueing" system similar to YouTube's order form, which many game creators saw as useful in saving time from waiting for transactions manually. Users can still trade with each other if they wish to do so.[23]

On December 10th 2021, ROBLOX released another update where players could join groups and wear clothes representing their group on their backpacks. However, yet again it was abused by many users who used the feature for monetary gain. As a result of this, ROBLOX removed the functionality and shut down the "ROBLOX Backpacks" section on their website. On May 19th 2021, ROBLOX updated its backpacks feature which allowed players to join groups.[77]

The concept of having the free robux script is based on saving time that one would take to carry out the routine tasks. For example, if you wish to comment and share a news article, then you would have to go through several procedures and this will make it difficult for one to stick with it. That is where the free robux script intervenes by automating these procedures so as to make your daily routine easier and time saving.

Roblox has been criticized in the past for not having any real-life weapons or vehicles because everything is made of blocks and visual effects.[58] However, ROBLOX has announced that they will be adding weapons and vehicles to the game soon.[59] They later went back on this statement by saying they would only add 3 weapons/vehicles at this time.

Roblox has been criticized for bombing players with harassing messages that appear on screen. In 2021, The Washington Post claimed that they were able to set up a fake email address in order to send players fake emails. On November 29, 2021, it was announced that they had removed the ability for players to send fake messages and that they were working on a new update that would do this.

In 2021, ROBLOX created a partnership with the National Football League (NFL) that allowed users to make digital representations of each NFL team and play Madden NFL in-game tournaments. This has created an online community for Madden fans to play against other players across the United States and Canada. On April 30th 2021 ROBLOX released a new version of its app called Ava. Ava serves to help players craft more interesting games from their favorite video games and cartoons. ROBLOX is the only stop-motion animated game where players can make their own characters in a game and then animate them. Ava has features such as a desktop workspace, a top toolbar that allows users to interact with other Ava users, and a snap menu that allows users to snap any two blocks together to create new shapes or new objects.

I guess the only reason I still play Roblox is because it's a free game and that I don't have to pay for anything. After all, what's the point of saving up your money if you have to spend it all just to try and get on a game you really want to play? There are many games out there that aren't free like Minecraft, but at least they give you some sort of advantage. For example, Minecraft gives you tools which can help you dig more efficiently and quickly. But Roblox doesn't provide any sort of help or assistance towards the gameplay itself. And it's not like Minecraft was designed with children in mind; it was created for adults.

In August 2021, a former employee posted a blog post detailing the company's "toxic" work culture and poor working conditions. The employee claimed that she was fired after speaking out about these issues and later filed a wrongful termination lawsuit against the company as well as several co-workers associated with her firing. The suit, which for the most part was dismissed, claimed that former CEO David Baszucki played an integral role in her firing as he forced the team to "ignore basic standards of professionalism". It also cited him for saying that "female workers in [his] office and in the tech industry were 'annoying' and should not serve in a high-ranking position."

In February 2021, Roblox was in violation of Terms of Service that required them to have a minimum age requirement for players.[72] In December 2021, ROBLOX temporarily suspended monetizing accounts and purchases of game currency within their website after it was discovered that many users had been cheated out of money. It is known that they worked with third-party vendors to purchase a limited amount of Robux for specific accounts.[73]

I guess that's one of the reasons why Minecraft is so popular; it's simple and easy to understand, because of things like having to collect resources to build things. If you see a home on something like Roblox and Minecraft, it's probably built out of random things a lot of people gave you; whereas in Minecraft there are actual blocks which you can use in the game itself.
