Hacking Roblox is a form of hacking. Hacking in general, when not applied maliciously, is the process of enabling access to computer systems that would otherwise be unavailable or difficult to access.

In March 2021, ROBLOX added a new feature that allows builders to use an already existing image of a face as their character's face. The face can be uploaded from the user's computer or through an online camera. This feature has been disabled for the 2021 Halloween game The Mad Murderer.[38]

The main reason for this update was to make ROBLOX a lot more social, as at the time the website only had game-based features. Also, players can now buy items (e.g., skins & backgrounds) with in-game currency and have them delivered to their homes.

Roblox uses multiple methods of advertising. They first started advertising on websites like Nickelodeon, but they have moved to focusing on social media sites like Facebook and Twitter.[66] Roblox also primarily advertises at gaming conventions such as E3 and Minecon. Roblox has an official YouTube channel on which they occasionally stream live events called "Developer Live", where Roblox employees give sneak peeks of upcoming features.[67] They have also recently released a list of YouTubers that are apart of their Developer Program called the "Roblox Ambassador Program". These YouTubers are able to test new features in Roblox before anyone else with the exception of Google employees.

I wrote all of this because I really love Roblox and I just want everyone to have fun in game without worrying about the problems that are being posted above. I think some of the problems can be fixed like muting the people who spam and the moderators should be able to keep a better eye on the areas they are in charge of.

Floating Balls! I have noticed that when you are at a group world and getting on people's chat heads they should be able to fly around like on normal. We need this because there are so many times where such a little bug would make these people mad if they were floating anywhere near them because they would not know what to say. Even though there are thousands of people in the group there should be more room for them to float. I think that there should be more than one chat head. I have seen people report this bug but it has not been fixed and I really want to see it fixed.

It is known that they worked with third-party vendors to purchase a limited amount of

Robux for specific accounts.[73]

On January 1st 2021, ROBLOX released a new core version update for their engine. They are now using a new source engine called "Bloxlet" and integrated a new built-in physics engine into the game. This feature will allow users to play in one of three different modes: Classic ROBLOX mode which uses the older physics system from ROBLOX, Bloxlet mode which uses the new physics system in ROBLOX 2.0 and fixed bugs, and Customized mode which allows players to customize their own physics setting. This update was expected to start being released in-game on January 15th 2021.[101] This release ended up having some bugs which caused users to get stuck in the game and crashes.[102] However an update was released a few days later, which fixed most of the bugs and added more control for players to customize their suitable physics settings.
